DATASHEET & CONSUMER PRICE LIST 2025
THE NETHERLANDS
PRICING IN EURO'S INCLUDING VAT

DESIGNER | YEAR Tjimkje de Boer | 2013
MATERIAL Glass, aluminium & epoxy

The strong interaction between our environment and ourselves means that the world we perceive as reality is often more coloured than we realise. Picturesque Refelctions plays with this fact. The work reflects ourselves and our surroundings awash with colour. Art and environment merge and together reflect an alternative world.

TJIMKJE | MAY 2025

Each Picturesque Mirror is created layer by layer. The various layers merge into one visual composition, full of detail and depth. Although the artist's full focus and sensitivity are required, this process allows for only limited direction. Serendipity hence becomes the defining element in crafting the final result. Handmade by Tjimkje herself, each mirror is unique. Reproduction therefore is not possible.
